

Increment of 1 Business of the Week

Since 1984 The County Line of Albuquerque has always strived to have every customer who comes through our doors leave impressed and excited to come back. Sitting at the foot of the beautiful Sandia Mountains, County Line customers have always enjoyed our beautiful, scenic setting and city-lights view as well as our friendly service and legendary, award-winning bar-be-que. As we look forward to our next 25 years we will continue our efforts to remain fresh and exciting to our existing and potential customers.

As part of this ongoing effort we have recently added several new menu items including Southern favorites like chicken fried chicken, chicken fried steak, and fried tortilla crusted catfish, to our already famous green-chile, stuffed peppered pork loin. And we've added lighter platters, burgers and sandwich to our lunch menu.

We are now open for regular lunch and dinner hours Wednesday through Sunday. This allows us to book the entire restaurant for large private functions on Mondays and Tuesdays as well as parties of all sizes seven days a week.

Now in its second year, County Line's music series benefitting the Roadrunner Food Bank of New Mexico has become a standard on Thursday nights for families and friends. The shows are free, but we have asked that guests bring non-perishable food items, and through the support of our extended County Line family we have raised enough cash to purchase over \$52,000 of food. Additionally, the series has collected over 3000 pounds of food.
